Primed - Standard
Standard or custom prefinish colors available

Options:

Custom mid rail location
Multiple mid rails
Prefinishing available
Radius, segment or angled top
Double sided raised panels
Flat panels
Cutouts in panels
Fixed Mounting Hardware

Millennium Wood Composite Combination shutters have eased edge stiles and rails. They are built using dowel construction, raised panels (raised 1 side) and "flush face" design (all stiles and rails are the same thickness). Faux louvers are used on this combination shutter. Millennium shutters are primed with an option for prefinishing with either standard or custom colors.
